

→ Features

- 26 standard sizes
- Rugged fully welded profile frame
- Riveted joints, beading all round and corner beads for additional dimensional stability
- Constructed of extra strong 5005 alloy aluminum sheeting
- Extra strong 1 - 1.5 mm sheet with all K470 larger than 29.5" x 21.67" base dimension
- IP 54 standard, IP 65 class protection against water jets available
- Cast-aluminum stacking corners
- Ergonomic spring handles automatically stow for safe shipping
- Integrated snap fasteners: may be secured with plug lock, lead seals, spring anti-opening latch or padlock (max. shackle thickness 6 mm)
- All-round polyurethane seal
- Stainless steel hinges
- Integrated lid straps
- Sized to fit DIN 15141 pallet
- Several IGBC Grizzly Bear Resistant certified sizes
- Contact ZARGES for custom sizes, fabrication, finishes, foam inserts and linings

→ Benefits

- **Efficient:** ZARGES is a market leader with more usable internal volume per cubic foot and is easily stackable
- **Lightweight:** Aluminum delivers excellent durability and weight savings in a smaller footprint
- **Impervious to elements:** Case withstands temperature range of -238° to 302° F; UV, water, weather and corrosion resistance
- **Will not warp or crack**
- **High level of stability due to three fully-welded aluminum profile frames**
- **Provides maximum EMI & RF protection**

→ Applications

- Clean Rooms
- Drones and UAVs
- Expeditions
- First Responders
- Hazardous Materials
- Industry and Manufacturing
- Lithium Ion Batteries
- Military, Aerospace and Government
- Overlanding
- Photography and Video
- Rugged Environments
- Satellites
- Schools and Universities
- Science and Research
- Sports and Recreation

→ Designed to Meet

- MIL-STD-810
- MIL-STD-461
- ATA 300 (Category I)
- DIN EN 60 529

The ZARGES K470 aluminum shipping and storage case provides perfect protection, even under the most extreme conditions. The K470 is lightweight, rugged, and dust and water resistant. Its durable construction provides optimal protection for any contents. IP 54 protection is standard, and IP 65 is available, as well as UN Certification for transport of Hazardous Goods. The K470 family of cases is ATA 300 approved for airline transport, both in cargo and, in certain sizes, as a carryon. In addition, several sizes have been certified Grizzly Bear Resistant by the IGBC. In total, there are 26 standard sizes, and custom fabrication is also available.

→ Why Aluminum is Superior to Plastic

 Light and highly robust	 Impervious to water vapor	 Strong and impact-resistant	 Magnetically neutral
 Impervious to extreme temperatures	 Fully recyclable	 Corrosion resistant	 UV radiation resistant
 Hygienic, easily decontaminated	 Easily machinable	 Heat and electric conductor	 Non-flammable

→ Available Sizes

→ ZARGES K470 Quality Features

 Edge, face and lid profile frame	 Load-bearing lid strap	 Stacking corners	 Continuous foam lid seal
 Ergonomic comfort sprung drop handle	 All riveted joints, except for spot-welded seam	 High strength, smooth welding points. Gap-free load-bearing overlap joint	 Durable C. fasteners for at least 20K operating cycles
 Stainless steel hinges	 Additional bracing on some larger units	 Continuous beading and corner beading, depending on size	 High performance flash butt welding process

* The case base is smaller than the case lid. For applications where precision is required please inquire with ZARGES.

** Internal Dimensions refers to the size of the case opening.
IGBC Certified Bear-Resistant.
