Medical Carts and Storage Systems

ZARGESMED.COM

ZARGES INC.

ZARGES medical carts and storage systems help ensure a smooth supply of materials for hospitals and healthcare facilities logistics. Our products support an integrated flow of materials from requisition through to the point of consumption.

ABOUT ZARGES

1933 ZARGES founded in Stuttgart, Germany as Europe's first light alloy processing company.

2007 ZARGES opened the doors to a technical center in Charlotte, NC offering engineering, warehousing, case modification, and foam fabrication capabilities.

Certifications

- ATA 300 Specifications
- ISO 9001 Certification
- ITAR certification letter

Benefits of Aluminum

Aluminum is light and highly robust

Aluminum is magnetically neutral

Aluminum is fully recyclable

Aluminum is hygienic and readily decontaminated

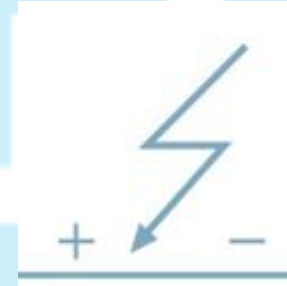

Aluminum is impervious to water vapor

Aluminum is resistant to corrosion

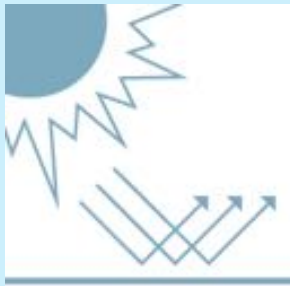

Aluminum is non-flammable

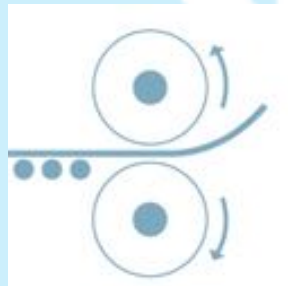

Aluminum is a good conductor of electricity and heat

Aluminum is very strong and not sensitive to impact

Aluminum is resistant to UV radiation

Aluminum is easily machinable

Aluminum is impervious to extreme temperature changes

Why ZARGES?

- Lightweight aluminum reduces repetitive motion injury concerns
- Ease of sterilization reduces “staph” “c-diff” “MRSA” concerns
- Product lifecycle cost reduced due to durability
- Space savings equals cost saving through better use of available storage

Why ZARGES?

- **Lower Costs**
 - Up front costs and space saving
- **Improve Patient Results**
 - Hygiene and disinfection
- **Improve Patient Experience**
 - In-room flexibility, bring services to patient
